ABOUT VIENNA

Vienna is the capital city of Austria, the city lies in the country's East and is situated on the Danube River. It has an artistic and intellectual legacy which was shaped by various residents including Mozart, Beethoven and Sigmund Freud. The city is also known for its well known beautiful palaces, including Schönbrunn and the Habsburgs' summer residence. Vienna has a Museums Quartier district, historic and contemporary buildings and demonstrates display works by Egon Schiele, Gustav Klimt and numerous other artists.

16TH – 19TH JUNE
2018 VIENNA
WORLD CONGRESS

CINP WORLD CONGRESS 2018 WELCOME ADDRESS

This is the most exciting moment in the history neuropsychopharmacology as advances in genetics and epigenetics; molecular, cellular, and systems neuroscience; neuroimaging, and other technologies create new and more powerful ways to study the brain. The challenge for the field at the moment is how to translate the explosion in new knowledge into advances in the diagnosis, prevention, and treatment of neuropsychiatric disorders. These are global challenges and the solutions, likewise, will emerge on a global basis.

CINP has a unique opportunity to build on its standing in the field of translational neuroscience and its role as a leading global organization to bring groundbreaking scientists together from around the world to broadly disseminate the cutting edge of science and to advance our collaborative effort to improve the treatment of neuropsychiatric disorders. Our World Congresses in Seoul in 2016 and in Vienna in 2018, provide special opportunities to come together to work on the causes and treatments of mental illnesses, which cause so much suffering and disability worldwide.

Professor John Krystal
President of CINP (2016 – 2018)

16TH – 19TH JUNE
2018 VIENNA
WORLD CONGRESS

CINP WORLD CONGRESS 2018

Professor Siegfried Kasper
CINP President Elect (2016-2018)
Chair of the Local Organising Committee

CINP EXECUTIVE COMMITTEE 2016 – 2018

President

John Krystal, USA
